

Pest Management Technician

A CAREER!

Always in expansion and continuing to grow, Maheu&Maheu, a leader in the Pest Management field, is regularly seeking applicants for the Greater Toronto Area.

Conditions:

- Wage may exceed \$75 000 depending on production
- Pension plan
- Group insurance plan
- Access to shares
- Vehicle and uniform provided
- Paid initial training
- Support from the Maheu&Maheu Technical team

... and much more!

Required skills:

- College degree (unless relevant experience)
- Autonomy and good communication skill
- Bilingual is an asset
- Valid driver's license

Job description:

Apply pest management principles to our customers to prevent pest infiltrations and to solve existing problems. Unlike the routine jobs, our technicians are confronted with many situations giving them the opportunity to show their knowledge and experience.

Inspection of the location, implement pest management programs that suit each client situations, find indications in the tracking networks and suggesting recommendations to the client are just few examples of the actions a technician of Maheu&Maheu is required to fulfil. Operating in many fields such as farming, agribusiness, industrial, commercial, institutional and residential adds variety to the technician's tasks in Pest Management.

If you are interested to join a WINNING TEAM, Please send your resume at the attention of Mike Hendrickson, Regional Director
